Dear Mr. Webster,
I have written to you before
and I will do so again.
I am sorry to say that I have
not had time to write to you
as I would like to do.
I hope you will receive this
letter with pleasure.
Yours very truly,
John C. Calhoun.

1776
July 4th
The Declaration of Independence
of the United States of America
in Congress Assembled
July 4th 1776
We hold these truths to be self-evident,
that all men are created equal,
that they are endowed by their Creator
with certain unalienable Rights,
that among these are Life, Liberty and the Pursuit
of Happiness — That to secure these rights,
Governments are instituted among Men,
whomsoever it is the Right of the People
to alter or to abolish them, and to institute
new Government, laying its Foundation
on such Principles and organizing its Powers
in such Form, as to them shall seem most
likely to effect their Safety and Happiness.
Prudence, indeed, will dictate that
Mankind would be very slow to
abandon a Government which has
produced so much happiness and so
little misery to so many people.

was well & that may
be good for a few
days until the first
or second frost
comes. Then
it will be
frozen solid
and last

it is best to have
the soil well manured
and the plants
well watered
but if you
have no
water you
will have to
dig up the
plants & move them
to a cool place

it is best to have
the soil well manured
and the plants
well watered
but if you
have no
water you
will have to
dig up the
plants & move them
to a cool place
